To Middle Peninsula Residents:

Provisions of the Chesapeake Bay Preservation Act require septic tanks in designated Chesapeake Bay Preservation Areas to be inspected or pumped every five years. The Middle Peninsula Planning District Commission is providing limited financial assistance for low-to-moderate income households in the Middle Peninsula to have septic tanks pumped.

A limited amount of funds are available for pump-out assistance and therefore applications will be processed on a first-come, first served basis until all available funds have been expended. Approved participants will receive a voucher for 50% of the cost of a septic tank pumpout with charges not to exceed \$150 billed to the MPPDC. Homeowner is responsible for payment of the remaining 50% to be paid directly to the septic hauler. MPPDC will not reimburse for work performed prior to a voucher being issued to a participant. A list of participating septic haulers will be provided with the voucher.

To qualify, the property must be located in a designated Chesapeake Bay Preservation Area in a Middle Peninsula locality (Counties of Essex, Gloucester, King and Queen, King William, Mathews, and Middlesex and the Towns of Tappahannock, Urbanna, and West Point), the applicant must qualify for low-to-moderate assistance, and the applicant must either own the property where the septic tank is located or be responsible for the maintenance of the septic tank in the agreement with their landlord.

If you are interested in being considered for assistance, please return the attached application along with supporting documentation (**copy of first page of most recent Federal Tax Return, copy of real estate tax bill, please contact MPPDC prior to submitting other documentation**) to the Middle Peninsula Planning District Commission, P.O. Box 286, Saluda, VA 23149. **Please note that if your property is located in the counties of King and Queen, Mathews or Middlesex or the Town of West Point the application *must* include a signed certification by your locality that your property is located in a Chesapeake Bay Preservation Area.** For additional information, please contact Beth Johnson or Dawn Kirby at (804) 758-2311.

This project received funding from the United States Environmental Protection Agency under the Chesapeake Bay Implementation Grant, Catalog of Federal Domestic Assistance Number 66.466, through the Virginia Department of Environmental Quality, via grant contract number 16486
