## VDH-D2PI SWAP

### Low Income Qualified Residential Septic Repair/Replacement, Well Replacement, Abandonments, Sewer Connections, and Public Water Connections

#### Contractors:

The Middle Peninsula Planning District Commission Septic and Well Assistance Program is soliciting bids for the attached project. Projects are supported by a grant program funded by the Virginia Department Health (VDH) and administered by the Middle Peninsula Planning District Commission (MPPDC) Septic and Well Assistance Program.

Grant funds will be utilized to fund 100% of the approved amount. The attached project has already been qualified for grant funding and the next phase is to solicit bids from contractors.

Attached you will find an itemized bid sheet breaking out certain costs and acknowledgments that need to be captured, a scope of work, and existing permits. Awarded projects are to be completed in a timely manner. **All work must be completed before the expiration of permits.** Work is done for the MPPDC SWAP Program, who disperses payment. You will receive a Notice to Proceed if you are awarded the project.

The grant has a hard deadline, to be reimbursed by this program all work, associated paperwork, invoices, and receipts must be dated prior to and received by the MPPDC SWAP Program Manager **no later than December 30<sup>th</sup>, 2024.**

For additional information or assistance, please contact Taylor Ovide, Coastal Resilience Planner at (804) 758-2311 or [tovide@mppdc.com](mailto:tovide@mppdc.com).

**Well Abandonment Project (2022-ER-100W)**  
**Address: 4545 Buckley Hall Rd, Cobbs Creek, VA 23035**

Cost for Line Item #1 (include total cost for items A-H) These are known factors. Vendors must invoice for actual cost incurred as described in the attached scope of work and permits.

Bid is good for \_\_\_\_\_ days

**The following are required. Please initial in agreement to perform the following and that any costs to perform these tasks are included in Line Item 1:**

	Initial on the lines below;
<p><b>D)</b> Provide, or subcontract with a licensed plumber and electrician to complete project per permits, scope of work, and code to convey the appropriate amount of water to the home plumbing system:</p>	<p>_____</p>
<p><b>I)</b> Bidders shall comply with all requirements of DPOR for contracting and executing the contract with the MPPDC. Operate within the requirements of the DPOR Water Well System Provider Certification and proof of insurance. Documentation of appropriate Licenseses Shall be provided to the MPPDC.</p>	<p>_____</p>
<p><b>L)</b> Submit invoice to <a href="mailto:tovide@mppdc.com">tovide@mppdc.com</a> once Local Water Authority has inspected and provided a completion report and inspection. Include a copy of the completion statement along with a copy of the ROI, GW-2, GW-05, lab results and completion statement:</p>	<p>_____</p>

**Private Well Abandonment (2022-ER-100W)**  
**Address: 4545 Buckley Hall Rd, Cobbs Creek, VA 23035**

**Scope of work:**

The contractor shall furnish all labor, supervision, equipment, tools, parts, supplies and materials, as necessary, to perform the services as described herein:

**Cost for Line Item #1 (include total cost for items A-H). These are known factors. Vendors must invoice for actual cost incurred as described herein.** ~~The initial bid should be an average cost/foot of depth for 150 feet (add other itemized costs such as mobilization/setup, etc.). Please note: 150 feet is an estimate, vendor will bill based on actual service performed, actual depth drilled (as verified on the GW 2 and VDH's Record of Inspection). Vendor will only be paid for actual well depth drilled, casing depth, grout depth, depth of drop pipe, pump, etc. Vendor must provide a detailed bid for 150 ft.; any additional footage must be listed as additional services at a per foot rate. Vendors who submit bids for over or under 150 feet; will not be accepted.~~

~~A) Construct a private water well that meets the location, construction specifications, water quantity, and water quality requirements of the Virginia Private Well Regulations (12VAC5-630-10 et seq., the Regulations).~~

~~B) Construct the above class III(B) well with a minimum of 50' of casing and grout and in compliance with the Mathews County Health Department Private Well Replacement construction Permit XXXX at XXXXXXXXXXXXXXXX in the location shown on the permit. The permit may contain additional conditions, notes, and information needed to construct the well.~~

C) Tree Removal and Site Clearing: A pre-bid site visit is recommended to determine what if any tree removal or site clearing that may need to occur. Per the above referenced Permit, remove any trees and wood debris as described in the permit and haul away wood and debris unless notified otherwise. Costs of tree removal and site clearing should be included in initial bids. Any additional site clearing or tree removal required during installation must be submitted in writing to and approved by MPPDC SWAP staff in writing including an additional cost estimate.

~~D) Provide, or subcontract with a licensed plumber and electrician to provide, the well pump, plumbing, and electrical required to convey the water under sanitary conditions from the well to the home plumbing system in the quantity required by the Regulations and the Virginia Uniform Statewide Building Code. This includes obtaining or assuring that the owner obtains all permits and inspections necessary by the local building authority in compliance with the Virginia Uniform Statewide Building Code.~~

~~E) Disinfect the well and plumbing as required by the Regulations and provide the required Uniform Water Well Completion Report (GW2). Obtain a final compliance inspection from the health department and a Record of Inspection and assure that the well is tested and complies with the water quality requirements of the Regulations.~~

F) Appropriately abandon existing private drinking water supply/well. Abandon the well as specified by the Regulations and by the Mathews County Health Department Private Well Abandonment Permit [157-22-98880]. This would include disinfecting the existing well and assessing the well depth, materials, and depth to water. Salvage any materials that can be removed from the well. Additional requirements and conditions may be found on the abandonment permit. Submit the required Uniform Water Well Completion Report GW-5 Well Abandonment Form with all required information filled out.

G) Follow all regulations and permitting pertaining to erosion and sediment control including stabilizing, seeding, and grading the site after construction to return to the original state. Control construction runoff with proper practices so as not to become a nuisance to the owner or to neighboring properties or cause sediment to be discharged into state waters and drainage ditches. Any construction debris must also be removed from the site and disposed of properly.

H) Bidders shall comply with all requirements of the Department of Professional and Occupational Regulations (DPOR) for contracting and executing the contract with the Virginia Department of Health. Operate within the requirements of the DPOR Water Well System Provider Certification and proof of insurance. Bidders contacted by SWAP Staff to provide any missing required documents, must provide the document within 24 business hours or their bid will be considered non-responsive.

I) Submit invoice to [tovide@mppdc.com](mailto:tovide@mppdc.com) once Local Water Authority has inspected and provided a completion report and inspection and the Local Health Department has issued as applicable the Record of Inspection (ROI) along with a copy of the ROI, GW-2, GW-05, lab results and completion statement.

**Additional Services (If Needed) Bidder must contact SWAP Project Manager listed on the Notice to Proceed for approval prior to any additional services performed. VDH will issue a change order for actual additional services rendered.**

The contractor shall furnish all labor, supervision, equipment, tools, parts, supplies and materials, as necessary, to perform the services as described herein:

- A. Additional depth (beyond 150 ft.): provide a per foot rate for additional depth. If bidder has an estimate of how deep the well may be at this location, please provide. Example:

Additional Depth (beyond 150 feet): \$25/ft, estimated additional depth 250 feet, estimated total well depth 400 feet.

- B. Additional cost for installation of a pump below 150 ft., including per foot cost for drop pipe.
- C.

### **Breakdown of Total Cost**

When responding to solicitation Bidders must attach a document listing breakdown of total cost for line item 1. Bidders must attach a separate breakdown of cost for additional services.

Additional cost should not be included in line item 1 bid submission.

**Optional site visit:** If a site visit is needed please contact Taylor Ovide to arrange a day/time for a site visit.

### **Additional questions:**

Contact Taylor Ovide via email: [tovide@mppdc.com](mailto:tovide@mppdc.com)

### **Notice to Proceed**

If Bidder is selected for award, the Bidder shall be required to provide a signed Notice to proceed form within 3 business days of notification. SWAP staff will provide a form for signature.

Private Well Abandonment Permit

November 30, 2023

Tax Map #: 5-8-A Owner Name: Clay A. Walker
HDID #: 157-22-0065 Mailing Address: 4545 Buckley Hall Road, Cobbs Creek VA, 23035
EHD #: 115-ST5-98880
Property Address: 4545 Buckley Hall Road, Cobbs Creek VA, 23035
Subdivision: None

Directions: Head southwest toward State Rte. 611 Turn right onto State Rte. 611 Turn right at the 1st cross street onto State Rte. 621 Turn left onto VA-14 W/VA-198 W. 4545 Buckley will be on the right.

The attached drawings and below specifications constitute your permit to install a private well on the property referenced above. This permit is null and void if conditions are changed from those shown on your application or if conditions are changed from those shown on the attached construction drawings and specifications. VDH may revoke or modify any permit if, at a later date, it finds that the site conditions, well location, and/or design do not substantially comply with the Private Well Regulations, 12 VAC 5-630-10 et seq, or if the well would threaten public health or the environment. There may be other local, state, or federal laws or regulations that apply to the proposed construction of this private well. The landowner is responsible at all times for complying with all applicable local, state, and federal laws and regulations, and for ensuring that the water well is properly located on the landowner's property and in the approved area indicated on the attached schematic.

Your private well must be inspected by a representative of the local health department. Your private well may not be placed into operation until you have obtained a Record of this Inspection (ROI) from the Mathews County Health Department.

This private well is located in a Groundwater Management Area as declared by the State Water Control Board. VDH recommends that, prior to well construction and testing, you contact the Department of Environmental Quality (DEQ) Office of Water Supply, for further information on the Groundwater Withdrawal Permitting Program's requirements and procedures. DEQ may have additional requirements regarding well construction and testing beyond those required by the Mathews County Health Department. For more information, visit DEQ's website at the following address: http://www.deq.virginia.gov/Programs/Water/WaterSupplyWaterQuantity/GroundwaterPermitting.aspx.

Before you can obtain your ROI, you must provide the Health Department with a complete Water Well Completion Statement /GW-2 from your well driller and a record of a satisfactory bacteriological sample result.

- Well Purpose: Domestic Drinking Water Minimum Casing Depth: N/A
Well Class: Class IIIB Minimum Grout Depth: N/A
Distance from Building Sewer: N/A
Distance from Septic/Pretreatment Tank: N/A
Distance from Conveyance System: N/A
Distance from Absorption Area: N/A
Distance from Property Line: N/A
Distance from Other: N/A
Minimum distance from any current or future soil-poisoned termite treated foundation: N/A

THIS PERMIT EXPIRES: May 30, 2028 and is not transferable to another owner or location.

### **PROPERLY ABANDON WELL IN ACCORDANCE WITH PRIVATE WELL REGULATIONS**

**12 VAC 5-630-10 et seq.**

**12VAC5-630-450. Well abandonment**

### WELL ABANDONMENT PROCEDURES

#### **PRIVATE WELL REGULATIONS**

**12 VAC 5-630-10 et seq.**

**12VAC5-630-450. Well abandonment.**

A. WELL ABANDONMENT IS GOVERNED JOINTLY BY THE DEPARTMENT OF ENVIRONMENTAL QUALITY AND THE DEPARTMENT OF HEALTH PURSUANT TO § 62.1-44.92(6) OF THE GROUND WATER ACT OF 1973 (REPEALED). IN ADDITION, THE ABANDONMENT OF ANY PRIVATE WELL GOVERNED BY THIS CHAPTER, OR ANY PRIVATE WELL ABANDONED AS A CONDITION OF A PERMIT ISSUED UNDER THIS CHAPTER, SHALL BE ADMINISTERED BY THE DEPARTMENT OF HEALTH IN CONFORMANCE WITH THIS SECTION.

B. A TEMPORARILY ABANDONED WELL SHALL BE SEALED WITH A WATER-TIGHT CAP OR WELL HEAD SEAL. SUCH A WELL SHALL BE MAINTAINED SO THAT IT WILL NOT BE A SOURCE OR CHANNEL FOR CONTAMINATION TO GROUND WATER DURING TEMPORARY ABANDONMENT.

C. PERMANENT ABANDONMENT. THE OBJECT OF PROPER PERMANENT ABANDONMENT IS TO PREVENT CONTAMINATION FROM REACHING GROUND WATER RESOURCES VIA THE WELL. A PERMANENTLY ABANDONED WELL SHALL BE ABANDONED IN THE FOLLOWING MANNER:

1. ALL CASING MATERIAL MAY BE SALVAGED.
2. BEFORE THE WELL IS PLUGGED, IT SHALL BE CHECKED FROM LAND SURFACE TO THE ENTIRE DEPTH OF THE WELL TO ASCERTAIN FREEDOM FROM OBSTRUCTIONS THAT MAY INTERFERE WITH PLUGGING (SEALING) OPERATIONS.
3. THE WELL SHALL BE THOROUGHLY CHLORINATED PRIOR TO PLUGGING (SEALING).
4. BORED WELLS AND UNCASSED WELLS SHALL BE BACKFILLED WITH CLEAN FILL TO THE WATER LEVEL. A TWO FOOT-THICK BENTONITE PLUG SHALL BE PLACED IMMEDIATELY ABOVE THE WATER LEVEL. CLEAN FILL SHALL BE PLACED ON TOP OF THE BENTONITE PLUG AND BROUGHT UP TO AT LEAST FIVE FEET FROM THE GROUND SURFACE. THE TOP FIVE FEET OF THE WELL CASING, IF PRESENT, SHALL BE REMOVED FROM THE BORE HOLE. IF AN OPEN ANNULAR SPACE IS PRESENT AROUND THE WELL CASING, THE ANNULAR SPACE SHALL BE FILLED WITH GROUT TO THE MAXIMUM DEPTH POSSIBLE, BUT LESS THAN OR EQUAL TO 20 FEET. A ONE-FOOT-THICK CEMENT OR BENTONITE GROUT PLUG THAT COMPLETELY FILLS THE BORE VOID SPACE SHALL BE PLACED A MINIMUM OF FIVE FEET FROM THE GROUND SURFACE. THE REMAINING SPACE SHALL BE FILLED WITH CLEAN FILL WHICH IS MOUNDED A MINIMUM OF ONE FOOT ABOVE THE SURROUNDING GROUND SURFACE. BORED WELLS OR UNCASSED WELLS ABANDONED IN THIS MANNER SHALL BE TREATED AS WELLS WITH RESPECT TO DETERMINING THE MINIMUM SEPARATION DISTANCE TO SOURCES OF CONTAMINATION LISTED IN TABLE 3.1. THE LOCATION OF THESE WELLS SHALL BE PERMANENTLY MARKED FOR FUTURE LOCATION.
5. WELLS CONSTRUCTED IN COLLAPSING MATERIAL SHALL BE COMPLETELY FILLED WITH GROUT OR CLAY SLURRY BY INTRODUCTION THROUGH A PIPE INITIALLY EXTENDING TO THE BOTTOM OF THE WELL. SUCH PIPE SHALL BE RAISED, BUT REMAIN SUBMERGED IN GROUT, AS THE WELL IS FILLED.
6. WELLS CONSTRUCTED IN CONSOLIDATED ROCK FORMATIONS OR WHICH PENETRATE ZONES OF CONSOLIDATED ROCK MAY BE FILLED WITH SAND OR GRAVEL OPPOSITE THE ZONES OF CONSOLIDATED ROCK. THE TOP OF THE SAND OR GRAVEL FILL SHALL BE AT LEAST FIVE FEET BELOW THE TOP OF THE CONSOLIDATED ROCK AND AT LEAST 20 FEET BELOW LAND SURFACE. THE REMAINDER OF THE WELL SHALL BE FILLED WITH GROUT OR CLAY SLURRY.
7. OTHER ABANDONMENT PROCEDURES MAY BE APPROVED BY THE DIVISION ON A CASE BY CASE BASIS.
8. TEST AND EXPLORATION WELLS SHALL BE ABANDONED IN SUCH A MANNER TO PREVENT THE WELL FROM BEING A CHANNEL FOR THE VERTICAL MOVEMENT OF WATER OR A SOURCE OF CONTAMINATION TO GROUND WATER.
