INDEPENDENT AUDITOR'S REPORT

To the Commissioners Middle Peninsula Planning District Commission Saluda, Virginia

Opinion

We have audited the accompanying financial statements of the governmental activities, business-type activities, and the aggregate remaining fund information of the Middle Peninsula Planning District Commission (the Commission) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the Commission as of June 30, 2023 and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Commission and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for twelve months beyond the financial statements date, including any currently known information that may raise substantial doubt shortly thereafter.

Phone: (703) 631-8940 FAX: (703) 631-8939

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud of error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule, the schedule of changes in the Commission's net pension liability and related ratios, and the schedule of employer contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of revenues and expenses by program is presented for purposes of additional analysis and is also not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of revenues and expenses — non-governmental accrual basis is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2024, on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

MIDDLE PENINSULA PLANNING DISTRICT COMMISSION MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the annual financial report of the Middle Peninsula Planning District Commission (the "Commission"), management provides a narrative discussion and an analysis of its financial activities for the fiscal year that ended June 30, 2023. Responsibility for the accuracy of the data as well as the completeness and fairness of this presentation (including all disclosures) rests with management. To the best of our knowledge and belief, the data contained herein is accurate in all material respects. This data is reported in a manner designed to fairly represent the Commission's financial position and the result of operations of its various funds. All disclosures necessary to enable the reader to gain an accurate understanding of the Commission's financial activities have been included. The Commission's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Overview of the Financial Statements

The financial statements presented herein included all of the activities of the Commission using the integrated approach as prescribed by GASB Statement No. 34. Management's Discussion and Analysis (MD&A) is intended to introduce the Commission's financial statements. In addition to this Management's Discussion and Analysis (MD&A), the report consists of the enterprise fund financial statements, and the notes to the financial statements. These financial statements are designed to be more corporate-like in that all activities of the Commission are considered to be business-type activities.

Required Financial Statements

The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents a snap shot view of the assets the Commission has, the liabilities it owes and the net difference. The net difference is further separated into amounts restricted for specific purposes and unrestricted amounts. Business-type activities are reported on the accrual basis of accounting. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position details the Commission's revenues and expenses by functional type, and the net operating result of the current year. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.

The Statement of Cash Flows shows the cash flows from the Commission's operating, capital and related financing, and investing activities.

The notes to the financial statements provide additional disclosure required by governmental accounting standards and provide information to assist the reader in understanding the Commission's financial condition.

The MD&A is intended to explain the significant changes in financial position and the differences in operation between the current year and prior years. Significant changes from the prior year are explained in the following paragraphs.

Financial Analysis

Summary Statements of Net Position June 30,

	<u>2023</u>	2022
Current Assets	\$1,362,428	\$1,236,992
Loans Receivable	486,235	268,171
Capital Assets (net)	5,621	969
Noncurrent Assets		<u>14,356</u>
Total Assets	<u>1,854,284</u>	1,520,497
Deferred Outflows of Resources	29,286	48,681
Current Liabilities	657,498	470,994
Long-Term Liabilities	456,159	_250,080
Total Liabilities	<u>1,113,657</u>	721,074
Deferred Inflows of Resources	41,672	_117,112
Invested in Capital Assets	5,621	969
Unrestricted	722,620	<u>730,023</u>
Total Net Position	\$ <u>728,241</u>	\$ <u>730,992</u>

Current assets increased during the year by approximately \$126,000 primarily due to a decrease in cash of \$280,000 as a result of current year operations, offset by an increase in accounts receivable of \$118,000.

Loans receivable increased approximately \$218,000 during the year as a result of new loans on various revolving loan programs.

Current liabilities increased approximately \$187,000 during the year primarily as a result of a timing difference in payments on accounts payable, and an increase in deferred revenue from income received in advance of the related expense.

Deferred inflows of resources associated with differences between projected and actual earnings of the plan investments decreased by \$75,000 during the year as a result of the current year pension evaluation.

Long-term liabilities increased by approximately \$206,000 during the current year, as the Commission continued its septic repair and living shoreline loan programs financed through the Virginia Resources Authority. VRA loans have a delayed payback period of 2-3 years.

Total net position decreased by \$2,751 this year, as a result of operations.

Summary Statements of Activities For the Years Ended June 30,

	<u>2023</u>	<u>2022</u>
Revenues		
Operating revenues	\$1,854,603	\$1,371,542
Interest	25,856	13,638
Total Revenues	1,880,459	1,385,180
Expenses		
General and administration	80,375	85,107
Project costs	1,802,399	1,237,130
Total Expenses	1,882,774	1,322,237
GASB 68 pension expense	(436)	(8,322)
Change in net position	(2,751)	54,621
Net position at beginning of year	730,992	676,371
Net position at end of year	\$ <u>728,241</u>	\$ <u>730,992</u>

Operating revenues increased by approximately \$483,000 and project expenses decreased by approximately \$565,000 from the prior year. The Commissions work program and local businesses greatly benefited by Federal COVID pandemic funding in the prior year, and those programs largely ended in the current year

It is not uncommon for these figures to change substantially from year to year due to differences in the Commission's work program based on changes in the Commission's priorities and the availability of funding to implement the work program. Being positioned to respond to unique Federal and State funding opportunities is a cornerstone of the Commission's success.

In FY 2023 actual federal operating revenues were under the budgeted amount by approximately \$900,000 and state grants were under the budgeted amount by approximately \$1,378,000 as several projects were delayed due to forces beyond the Commission's control such as staffing changes, and unavoidable pandemic delays by project partners. Consultant and contractual expenses relating to those projects were \$1,983,000 below the budgeted amounts.

Actual expenses exceeded budgeted expenses for personnel costs by approximately \$10,000 as a result of the Commission's performance compensation program whereby management is authorized to obtain additional funding to enable and enhance the Commission's work program and increase staff salaries proportionately as additional funding is obtained. The ability to allow for a fluctuation in personnel costs based on availability of funding allows for greater flexibility in applying for additional funding to advance the Commission's priorities without increased staffing.

Actual legal and accounting costs exceeded the budgeted amount by \$21,000 as a result of the need for more legal oversite due to an increase in complexities of water resiliency projects.

Website and internet costs were \$14,000 lower than budgeted because we did not require as much anticipated IT support as in previous years. Also, we have an agreement with our IT person that if she does not invoice in time that we are not required to pay more than our monthly retainer.

Capital Assets

The capital assets in the governmental funds consist of computer equipment and vehicles used in the business-type activities of the Commission.

Long-Term Debt

Long-term debt consists of five loans from the Virginia Water Facilities Revolving Fund. During FY2016 the Commission received a loan in the amount of \$200,000 from the Virginia Water Facilities Revolving Fund to increase the revolving loan fund for wastewater loans. As of June 30, 2023, \$167,293 had been drawn on this loan but through regular annual payments has been reduced to \$5,567. A second loan in the amount of \$250,000 from the Virginia Water Facilities Revolving Fund to capitalize the new revolving loan fund for living shoreline projects was settled in FY2018. As of June 30, 2023, \$250,000 has been drawn down on this loan but through regular annual payments has been reduced to \$154,131. During FY2021, a third loan in the amount of \$175,000 from the Virginia Water Facilities Revolving Fund was received to provide additional capital for living shoreline projects. As of June 30, 2023, \$175,000 has been drawn down on this loan but through regular annual payments has been reduced to \$95,833. Also, in FY2021, a fourth loan in the amount of \$149,894 from the Virginia Water Facilities Revolving Fund was received to increase the revolving loan fund for wastewater loans. As of June 30, 2023, \$32,137 had been drawn down on this loan but through regular annual payments has been reduced to \$29,939. Finally, in the current year, a fifth "Super" loan from the Virginia Water Facilities Revolving Fund in the amount of \$2,700,000 was received to provide additional capital for both the wastewater loans and the living shoreline projects. As of June 30, 2023, \$174,139 has been drawn on this loan.

Economic Factors and Future Outlook

Presently, the management of the Commission is aware of the changing federal, state, regional, and local economic climate and is working to comprehensively understand, address, and plan for the future security of the Commission consistent with the evolving new economic model and the cumulative effects of the Pandemic on the work program of the Commission. Federal funding such as the Infrastructure Investment and Jobs Act (IIJA 2021), aka Bipartisan Infrastructure Law (BIL) and Inflation Reduction Act of 2022, continue to release directly and indirectly significant federal funding into communities. MPPDC staff continues to capture significant Federal funds for well, septic, and shoreline protection. Most grant awards are reimbursement-driven which poses a significant financial challenge for the smallest unit of government to "cash flow" projects and then request reimbursement. Staff will continue to work with funding partners requesting advance draws, submit reimbursement requests directly to the funding agency, and other approaches (MPPDC bank line of credit) to lessen the daily cash flow needs of the Commission. The Commission's performance compensation program has added stability for the staff while many other PDC's and local governments are losing qualified employees. Currently, management has increased the use of staffing under cooperative procurement to provide staffing needs as a means to provide more and varied expertise for increasingly complicated projects being undertaken by the Commission regarding environmental and economic development projects.

Contacting the Commission's Financial Management Staff

This financial report is designed to provide a general overview of the Commission's finances and show the Commission's accountability for the funds it receives. If you have questions about this report or need additional information, contact the Commission's Executive Director at 125 Bowden Street in Saluda, Virginia.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - Organization and Summary of Accounting Policies

The Middle Peninsula Planning District Commission (the "Commission") was established April, 1972, pursuant to the provisions of Section 15.1-1403 of the Virginia code (the 1968 Virginia Area Development Act) as an authorized regional planning district commission. The Commission's primary duty is to promote orderly and efficient development of the physical, social and economic elements of the district by planning, encouraging and assisting governmental subdivisions to plan for the future. The Commission is a subsidiary organization of the counties of Essex, Gloucester, King and Queen, King William, Mathews, Middlesex and the towns of Tappahannock, Urbanna and West Point. Commission funding is obtained from member jurisdictions' contributions, funds provided by the Commonwealth of Virginia, and Federal, state and local grants and contracts for specified projects designed to further the Commission's goals and objectives.

The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies followed in the preparation of these financial statements:

- (a) Reporting Entity The Commission's governing body is composed of members appointed by the nine member jurisdictions. The Commission is not a component unit of any of the member governments, and there are no component units to be included in the Commission's financial statements.
- (b) Basis of Accounting The accounting and reporting policies of the Commission relating to the accompanying basic financial conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB) and by the Financial Accounting Standards Board (when applicable).

Management believes that the periodic determination of revenues earned, expenses incurred and net income is desirable for purposes of facilitating management control and accountability. Therefore, the activities of the Commission are accounted for as a proprietary fund which uses the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred. The Commission considers grant revenue as earned when the grant expenditure is incurred.

Private-sector standards of accounting and financial reporting issued prior to December 31, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

The Commission generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available. The Commission may defer the use of restricted assets based on a review of the specific transaction.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 – Organization and Summary of Accounting Policies (Continued)

- (c) Revenue Recognition Intergovernmental revenues, consisting primarily of federal, state, local and other grants for the purpose of funding specific expenditures, are recognized when earned. Contributions of the member governments are based on population and are assessed annually. The Commission recognizes a liability for funds received in excess of project expenditures.
- (d) Project Expenditures The costs of goods and services that are identifiable for indirect costs are allocated to projects as described in Note 11. Personnel costs for Commission employees, including overtime and compensatory time, are direct charges to the appropriate projects. Expenses for paid leave and fringe benefits are allocated to projects as described in Notes 8 and 9.
- (e) Concentrations of Credit and Market Risk Financial instruments that potentially expose the Organization to concentrations of credit and market risk consist primarily of cash equivalents and investments. Cash equivalents are maintained at high-quality financial institutions which, at times, may exceed federally insured limits. Credit exposure is limited to any one institution. The Commission has not experienced any losses on its cash equivalents.
- (f) Cash and Cash Equivalents Cash and cash equivalents include investments in highly liquid debt instruments with a maturity of three months or less, excluding amounts whose use is limited by the Commission's Board designation or other arrangements under trust agreements with third-party payers.
- (g) Accounts Receivable Accounts receivable are reported at their gross value when earned as the underlying exchange transaction occurs. Receivables related to non-exchange transactions are recognized when their eligibility requirements have been met. Receivables are reduced by the estimated portion that is expected to be uncollectible. This estimate is made based on collection history and current information regarding the credit worthiness of the debtors. When continued collection activity results in receipts of amounts previously written off, revenue is recognized for the amount collected. Management considers all of the receivables collectible at June 30, 2023, and no allowance for doubtful accounts has been provided. Concentration of credit risk with respect to accounts receivable is limited due to the number of grantors, man of which are federal government grants.
- (h) Employee Leave Benefits Commission policy allows employees to accumulate unused vacation leave up to certain maximum hours. Commission employees earn from twelve to eighteen vacation days a year, depending on the length of their employment. Annual leave may be carried over from one fiscal year to the next, subject to certain limitations. The liability for accrued vacation is \$55,093 as of June 30, 2023.

All employees receive fifteen sick days a year. Sick leave may be carried over from one fiscal year to the next. Upon termination or retirement, employees with five or more years of continuous salaried service may receive up to 25% of their unused sick leave balances up to a maximum of \$5,000. The liability for accrued sick leave is \$14,690 as of June 30, 2023.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 – Organization and Summary of Accounting Policies (Continued)

- (i) Management Estimates The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- (j) Capital Assets Capital assets are recorded at historical or estimated historical cost if actual historical cost is not available for items exceeding \$1,000. Depreciation is taken on the straight-line method over the estimated useful life of the respective asset.

The estimated lives are as follows:

Equipment 3-5 years Furniture 7 years

Assets that have been purchased with grantor funds may revert to the grantor in the event the program is discontinued.

- (k) Budgets and Budgetary Accounting Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all funds. All budgets are presented on the modified accrual basis of accounting. Accordingly, the Budgetary Comparison Schedule presents actual expenditures in accordance with the accounting principles generally accepted in the United States of America on a basis consistent with the adopted budgets as amended.
- (1) Advertising Costs Advertising costs are expensed as incurred.
- (m) Deferred Outflows/Inflows of Resources The Commission reports deferred outflows of resources on its statement of net position. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until the applicable period.
 - The Commission reports deferred inflows of resources on its statement of net position. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until a future period.
- (n) Pension For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Commission's Virginia Retirement System (VRS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 2 - Cash and Investments

State statute authorizes the Commission to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, repurchase agreements, certificates of deposit or time deposits insured by the FDIC, and the local government investment pool. Deposits are carried at cost, which approximates fair value. All of the bank balances were covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act.

Investments in 2a7-like pools are valued based on the value of pool shares. The Commission invests a 2a7-like pool, the Local Government Investment Pool, managed by the Virginia Department of Treasury. Permitted investments in the pool include U.S. government obligations, repurchase agreements, certificates of deposit, banker's acceptances, commercial paper, short-term corporate notes, and short-term taxable municipal obligations. The investment pool has not been assigned a risk category since the Commission is not issued securities, but rather owns an undivided interest in the assets of the pool. The Commission's balance in the investment pool was \$339,990 at June 30, 2023.

NOTE 3 - Property and Equipment

A summary of property and equipment as of June 30, 2023 is as follows:

	Balance July 1, 2022	Additions	Disposals	Balance June 30, 2023
Equipment Accumulated	\$ 51,476	\$7,837	\$ -	\$ 59,313
Depreciation	(50,507)	(3,185)		(53,692)
Net	\$ <u>969</u>	\$ <u>4,652</u>	\$ <u> </u>	\$ <u>5,621</u>

NOTE 4 – Commitments

The Commission participates in a number of programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Commission may be required to reimburse. As of June 30, 2023, the Commission believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the Commission.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 – Pension Plan

The Virginia Retirement System (VRS) Political Subdivision Retirement Plan is a multi-employer, agent plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Commission's Retirement Plan and the additions to/deductions from the Commission's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description

All full-time, salaried permanent (professional) employees of the Commission are automatically covered by VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria a defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
About Plan 1	About Plan 2	About the Hybrid Retirement Plan
Plan 1 is a defined benefit plan. The	Same as Plan 1.	The Hybrid Retirement Plan combines the
retirement benefit is based on a member's		features of a defined benefit plan and a defined

compensation at retirement using a formula.		 The defined benefit is based on a member's
		age, service credit and average final
		compensation at retirement using a formula.
		 The benefit from the defined contribution
		component of the plan depends on the member
		and employer contributions made to the plan
		and the investment performance of those
		contributions.
		 In addition to the monthly benefit payment
		payable from the defined benefit plan at
		retirement, a member may start receiving
		distributions from the balance in the defined
		contribution account, reflecting the
		contributions, investment gains or losses, and
		any required fees.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 – Pension Plan (Continued)

Eligible Members

Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013, and they have not taken a refund.

Hybrid Opt-In Election

VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.

Retirement Contributions

Members contribute up to 5% of their compensation each month to their member contribution account through a pretax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.

Eligible Members

Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.

Hybrid Opt-In Election

Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement plan.

Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.

Retirement Contributions

Same as Plan 1.

Eligible Members

Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:

- Political subdivision employees*
- Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014.

* Non-Eligible Members

Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:

 Political subdivision employees who are covered by enhanced benefits for hazardous duty employees.

Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.

Retirement Contributions

A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan.

Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is requited to match those voluntary contributions according to specified percentages.

Cost-of-Living	Adjustment	(COLA)	in
Retirement			

The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.

Eligibility:

For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of service credit, the COLA will go into effect on July 1 after one full calendar year from the retirement date.

For members who retire with a reduced benefit and who have less than 20 years of service credit, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.

Exceptions to COLA Effective Dates:

The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:

- The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
- The member retires on disability.
- The member retires directly from short-term to long-term disability.
- The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
- The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit.

The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.

Cost-of-Living Adjustment (COLA) in Retirement

The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.

Eligibility:

Same as Plan 1.

Exceptions to COLA Effective Dates:

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 – Pension Plans (Continued)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Commission's contractually required contribution rate for the year ended June 30, 2023 was 4.81% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Commission were \$13,102 and \$10,170 for the years ended June 30, 2022 and June 30, 2021, respectively.

Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For the Commission, the net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2021 rolled forward to the measurement date of June 30, 2022.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Commission's Retirement Plan was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022.

Inflation 2.5%

Salary increases, including Inflation 3.5% - 5.35%

Investment rate of return 6.75%, net of pension plan investment expenses,

including inflation*

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 – Pension Plans (Continued)

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 – Non-Hazardous Duty:

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 – Pension Plans (Continued)

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long- Term Expected Rate of Return
Public Equity	34.00%	5.71%	1.94%
Fixed Income	15.00%	2.04%	0.31%
Credit Strategies	14.00%	4.78%	0.67%
Real Assets	14.00%	4.47%	0.63%
Private Equity	14.00%	9.73%	1.36%
MAPS-Multi-Asset Public Strategies	6.00%	3.73%	0.22%
PIP-Private Investment Partnership	3.00%	6.55%	0.20%
Total	100.00%		5.33%
	Inflation		2.50%
 Expected arithmetic nominal return 	1		7.83%

^{*} The above allocation provides a one-year return 7.83%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.72%, including expected inflation of 2.50%. On October 10, 2019 the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2023, the alternate rate was the employer contribution rate used in FY2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017, actuarial valuations, whichever was greater. From July 1, 2021 on, participating employers are assumed to continue 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the Long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2023 *Comprehensive Annual Financial Report* (CAFR). A copy of the 2023 VRS CAFR may be downloaded from the VRS website at <u>varetire.org/Pdf/Publications/2023-annual-report.pdf</u>, or by writing to the System's Chief Financial Officer at PO Box 2500, Richmond, VA 23218-2500.

NOTE 6 – Notes Payable

On December 16, 2014 the Commission entered into a financing agreement with the Virginia Water Facilities Revolving Fund to receive a \$200,000 loan to finance project costs of small water facility projects. The loan is non-interest bearing, and calls for semi-annual repayments of \$10,000 commencing on June 1, 2018.

On June 14, 2017 the Commission entered into a financing agreement with the Virginia Water Facilities Revolving Fund to receive a \$250,000 loan to finance project costs of small water facility projects. The loan is non-interest bearing, and calls for semi-annual repayments of \$8,333 commencing on June 1, 2019.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 6 – Notes Payable (Continued)

On August 1, 2020 the Commission entered into a financing agreement with the Virginia Water Facilities Revolving Fund to receive a \$175,000 loan to finance project costs of small water facility projects. The loan is non-interest bearing, and calls for semi-annual repayments of \$5,833 commencing on August 1, 2022.

The Commission entered into a new financing agreement with the Virginia Water Facilities Revolving Fund to receive a \$175,000 loan to finance project costs of small water facility projects. The loan is non-interest bearing, and calls for semi-annual repayments of \$5,833 commencing on August 1, 2023.

The Commission entered into a new financing agreement with the Virginia Water Facilities Revolving Fund to receive a \$175,000 loan to finance project costs of small water facility projects. The loan is non-interest bearing, and calls for semi-annual repayments of \$5,833 commencing on August 1, 2025.

The following is a summary of changes in long-term debt for the year ended June 30, 2023:

	Beginning	<u>Additions</u>	<u>Deductions</u>	<u>Ending</u>
VRA 2015 Note	\$ 20,116	\$ -	\$14,549	\$ 5,567

VRA 2020 Note #2	5,190	24,749	-	29,939
VRA 2022 Note		<u>174,139</u>		174,139
Total	\$303,603	\$ <u>198,888</u>	\$ <u>42,882</u>	\$ <u>459,609</u>

Mandatory debt service requirements consist of the following:

<u>Total</u>
\$ 45,566
39,999
51,565
51,565
51,565
<u>225,349</u>
\$ <u>465,609</u>

NOTE 7 – Lease Commitments

The Commission is obligated under an operating lease for office facilities. The 21-month facility lease commenced on October 1, 2018 and expired on June 30, 2020. The lease contains a provision whereby it automatically renews for a one-year period with a 3% increase in rent unless a three month notice to vacate is given. The lease calls for monthly payments in the amount of \$2,338. Rent expense was \$26,272 for the year ended June 30, 2023.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 8 – Leave Allocation

The leave allocation includes annual leave expense which is based on the amount of leave earned during the year. Other types of leave (i.e., holiday leave, administrative leave, etc.) are based on the amount of leave actually taken. Components for the leave allocation for the year ended June 30, 2023, are shown below:

Leave	
Annual	\$44,960
Holiday	29,243
Sick	<u>17,913</u>
Total	\$ <u>92,116</u>

The leave allocation rate for the fiscal year ended June 30, 2023, is calculated as follows:

Leave allocation	\$ <u>92,116</u>
Total regular time salaries, excluding leave	\$437,689 = 21.05%

NOTE 9 - Fringe Benefit Allocation

Fringe benefit expense is allocated using the percentage of benefits to total salaries. The fringe benefit rate for the fiscal year ended June 30, 2023 is calculated as follows:

Fringe benefit expense	\$ <u>139,506</u>
Total salaries	\$529,805 = 26.33%

Components of fringe benefit expense for the year ended June 30, 2023, are shown below:

Fringe benefits	
Group health insurance	\$ 70,800
Social security taxes	38,168
Retirement and special pension	24,619
Group life insurance	4,507
Long-term disability	1,203
Unemployment	209
Total	\$ <u>139,506</u>

NOTES TO FINANCIAL STATEMENTS (Concluded)

NOTE 10 – Indirect Costs

Indirect costs, which support all projects, are allocated based on the ratio of the individual project's direct salaries, leave, and fringe benefits to total direct salaries, leave, and fringe benefits (excluding temporary help). The indirect cost rate for the fiscal year ended June 30, 2023 is calculated as follows:

Indirect costs \$215,500

Total direct salaries, consultant costs,

leave, and fringe benefits \$863,687 = 24.95%

The following are included in indirect costs allocated to projects:

Salaries	\$ 75,066
Rent and storage	26,272
Legal and accounting	25,827
Fringe benefits	20,817
Travel	11,715
Printing and duplicating	6,813
Consulting/contractual services	6,328
Workshop and conferences	6,229
Internet access/website	6,031
Dues and subscriptions	5,001
Information technology	4,772
Utilities	4,423
Telephone	4,329
Office supplies	3,512
Depreciation	3,228
Insurance	2,630
Facility and equipment maintenance	1,272
Postage	878
Miscellaneous	357
Total	\$215,500

NOTE 11 – Loans Receivable

The Commission operates several loan programs to provide low or no interest loans for wastewater, small business and housing projects. The loans are carried at the net realizable value, and all amounts are believed collectible as of June 30, 2023. Loan loss reserves exist for several of the programs.

NOTE 12 – Evaluation of Subsequent Events

The Commission has evaluated subsequent events through February 28, 2024, the date which the financial statements were available to be issued.

SCHEDULE OF REVENUES AND EXPENSES BY PROGRAM For the Year Ended June 30, 2023

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2023 (Continued)

NOTE 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Middle Peninsula Planning District Commission, under programs of the federal government for the year ended June 30, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Because the schedule presents only a selected portion of the operations of Middle Peninsula Planning District Commission, it is not intended to and does not present the financial position, change in net position or cash flows of Middle Peninsula Planning District Commission.

NOTE 2 - Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principals, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - Indirect Cost Rate

Middle Peninsula Planning District Commission has elected not to use the 10% de minimus indirect cost rate allowed under Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Commissioners
Middle Peninsula Planning District Commission:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Authorities*, *Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia the financial statements of governmental activities, the business-type activities and the aggregate remaining fund information of Middle Peninsula Planning District Commission, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Middle Peninsula Planning District Commission's basic financial statements, and have issued our report thereon dated February 28, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Middle Peninsula Planning District Commission's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Middle Peninsula Planning District Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of Middle Peninsula Planning District Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Phone: (703) 631-8940 FAX: (703) 631-8939

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Middle Peninsula Planning District Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REOUIRED BY THE UNIFORM GUIDANCE

To the Commissioners
Middle Peninsula Planning District Commission:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Middle Peninsula Planning District Commission's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Middle Peninsula Planning District Commission's major federal programs for the year ended June 30, 2023. Middle Peninsula Planning District Commission's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Middle Peninsula Planning District Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responses under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Middle Peninsula Planning District Commission and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Middle Peninsula Planning District Commission's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal controls over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Middle Peninsula Planning District Commission's federal programs.

Phone: (703) 631-8940 FAX: (703) 631-8939

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Middle Peninsula Planning District Commission's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about Middle Peninsula Planning District Commission's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Middle Peninsula Planning District Commission's compliance with the compliance requirements referred to above and performing such other procedures as we consider necessary in the circumstances.
- Obtain an understanding of Middle Peninsula Planning District Commission's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion of the effectiveness of Middle Peninsula Planning District Commission's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended June 30, 2023

NOTE 1 - Change of Benefit Terms

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

NOTE 2 - Changes of Assumptions

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 – Non-Hazardous Duty:

Mortality Rates (Pre-retirement, post retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

All Others (Non 10 Largest) – Non-Hazardous Duty:

Mortality Rates (Pre-retirement, retirement healthy, and disabled)	post-	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates		Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates		Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates		No change
Salary Scale		No change
Line of Duty Disability		No change
Discount Rate		No change
